of water resources and timely adaptation to drought*

Sustainable Governance of Water Resources: Between Urban and Agricultural Uses

30 October 2025

Venue

Palazzo Prosciutti, Università per Stranieri di Perugia, Perugia (Italy)

October 30, afternoon

Participation in Professor Simone Vezzani's Class

On October 30th, in the afternoon, Professors Carla Piffer and Denise Garcia, PhD Jaine Suzin, and PhD candidates Marisa Mendes and Luana Francisco took part in the class taught by Professor Simone Vezzani (professor of the Department of Law at UNIPG and researcher of the More4Water Project) in the Corso di Laurea in Management e Cultura Italiana del Cibo, held at the Palazzo Prosciutti of the Università per Stranieri of Perugia.

The class addressed the topic “Sustainable Governance of Water Resources: Between Urban and Agricultural Uses.”

This initiative was part of the Water4All Project, funded in Brazil by FAPESC (Public Call 12/2022 – FAPESC ABROAD), coordinated by Professor Carla Piffer, and integrated into the Joint International Research Program between PPCJ/UNIVALI and the Department of Law of the University of Perugia.
